

Hazards in the lab include electrical, chemical and fire hazards. Students are expected to strictly follow the guidelines given below:

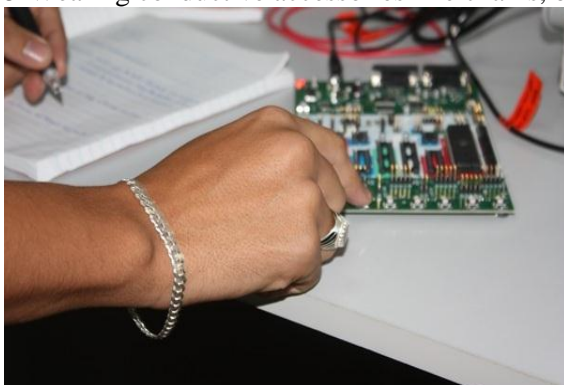

- 1-Working alone in lab is not allowed.
- 2-Double check the circuits before energizing them.
- 3-Bringing Food, Water or any other liquids, is not allowed.

- 4-Wear Close shoes, open shoes are not allowed. Completely closed shoes are required to be worn. Half open shoes are also not allowed.

- 5-Wearing conductive accessories like chains, bracelets, rings, watches etc., in labs is not allowed.

6-Keep the long hair tied properly.

7-Shorts or similar kind of attire is not allowed.

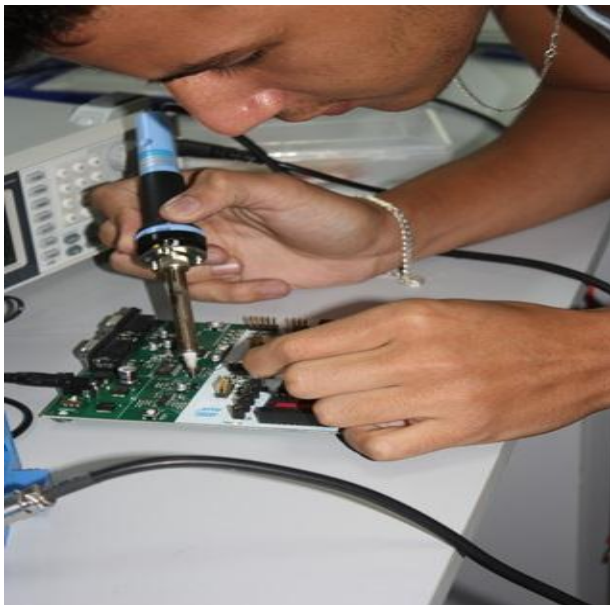

8-No bags on floor.

9-Goggles shall be worn while soldering.

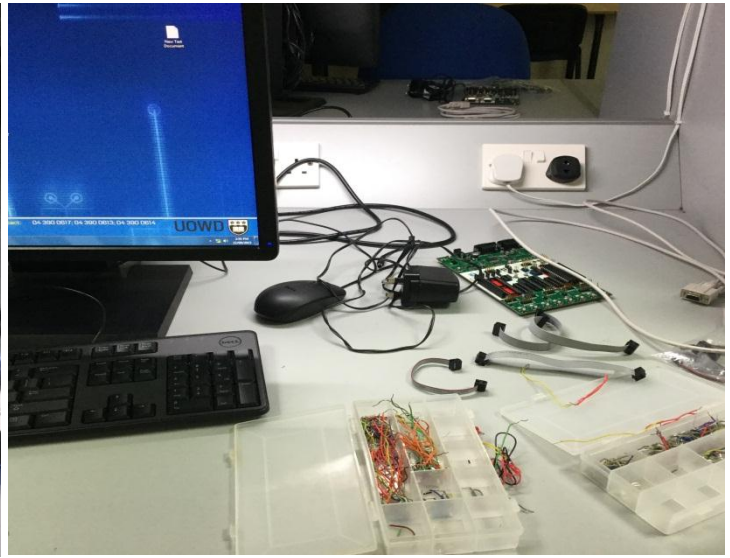

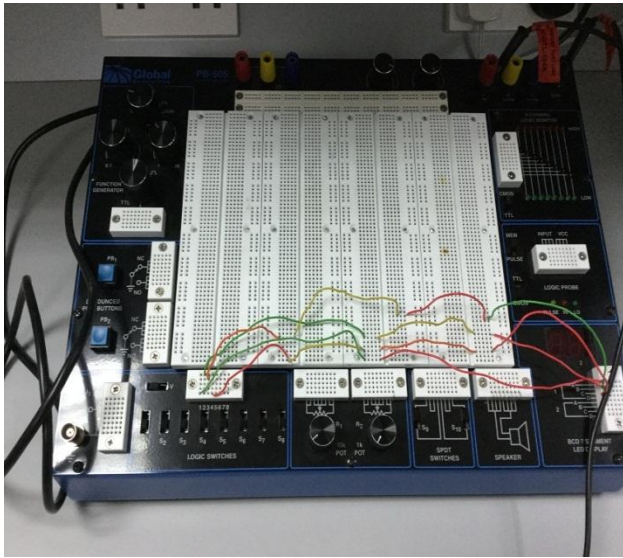

10-Don't write on tables or walls.

11- Mobile phones are not allowed. Kindly maintain learning environment in the lab.

12-At end of each lab, pack all the apparatus and place the wires, cables, IC's and other items back. Turn the computer off.

13-In Case of fire, leave the lab immediately and don't stop to collect your belongings.

14-In case you suspect someone to be in contact with electricity, turn the electricity off and don't touch.

15-These rules apply to all students at all times in all engineering labs, whether they are working on circuits or computers only.

16-Students failing to follow the instructions will be asked to leave the lab immediately.
